preparing today's youth for tomorrow's future

## Making a Difference

### Preparing Today's Youth for Tomorrow's Future

The San Diego North Educational Foundation is an organization dedicated to developing the business leaders of tomorrow.

Through the Foundation's mentorship/internship program, students are able to gain real world experiences at an early age, building character and a strong work ethic that will carry with them in their life pursuits.

The Foundation aspires to increase high school graduation rates by pairing even the most uninterested of students with a mentor and leader who is capable of inspiring youth, transitioning them from an unfocused student to a competent and confident leader.

Focusing on high school and college students, the mentorship/internship program is designed to foster interest in students and introduce them to fields they may not have previously considered.

In addition to inspiring today's youth, the San Diego North Educational Foundation provides these opportunities for students who find that a four year college or university may not be the right fit for them.

It is the goal of the Foundation to help every student, no matter their pursuits, achieve their maximum potential.

Through social skills development, mentorship/internship opportunities and career development, SDNEF is able to foster this growth and help students reach new heights.

- **Providing Mentorship/Internship Opportunities**

Work experiences build character and strong ethics. By providing mentorship/internship opportunities for students, SDNEF aspires to build a competent workforce for tomorrow.

- **Developing Social Skills**

SDNEF believes in the importance of communication. It is this essential skill that will help many of today's students achieve their true potential.

- **Exposing Youth to Global Market Opportunities**

Having a jump-start on career opportunities in today's marketplace can make a huge difference in a life. By introducing high school students the multitude of industries and career possibilities, SDNEF hopes to introduce new avenues to spark passion in every student.

- **Developing Practical Principles of Career Development**

SDNEF guides students through the processes of interviewing and resume writing so they can put their best foot forward.

- **Providing Non-Traditional Scholarships**

These scholarships will help students who are not headed to a four year university, achieve their goals through other forms of continuing education and trade schools.
